# Contents

- 1**    **Transitioning to Low Carbon Mobility**    **1**  
Debbie Hopkins and James Higham

## Part 1: People and Place

- 2**    **Knowledge Co-production and Behavioural Change: Collaborative approaches for promoting low carbon mobility**    **12**  
Stewart Barr and Gareth Shaw
- 3**    **Generational Mobilities: Transitions for the millennial generation**    **30**  
Alexa Delbosc
- 4**    **Optimising Low Carbon Mobility for Health and Equity**    **45**  
Alex Macmillan and Hamish Mackie
- 5**    **Hypermobile Business and Leisure Lifestyles: Will wellbeing concerns stimulate environmental co-benefits?**    **66**  
Scott A. Cohen
- Case Study 1: The low carbon mobilities of Chinese migrant communities in Sydney, Australia**    **77**  
Sophie-May Kerr, Natascha Klocker and Gordon Waitt
- Case Study 2: Opening Cape Town streets for a low carbon future**    **83**  
Leanne Seeliger and Lisa Kane

## Part 2: Structures in Transition

- 6**    **The Challenges of Changing the Paradigms, Regimes and Structures of Low Carbon Mobility**    **91**  
C. Michael Hall
- 7**    **Institutions, Path Dependency and Public Transport**    **104**  
Muhammad Imran and Jane Pearce
- 8**    **The Structures of Mobility and Challenges of Low Carbon Transitions in India**    **119**  
Rutul Joshi, Yogi Joseph and Vivek Chandran
- 9**    **Low Carbon Transition in Finnish Mobility: The clash of experimental transport governance and established practices?**    **137**  
Paula Kivimaa and Armi Temmes

<b>10</b>	<b>The Underlying Structures of Low Carbon Mobility</b>	<b>153</b>
	Peter Newman	
	<b>Case Study 3: Why the car is key to low carbon mobility in Brazil</b>	<b>165</b>
	Tobias Kuhnimhof and Christine Weiss	
	<b>Case Study 4: Low carbon transition – potentials and limitations for tour operators</b>	<b>178</b>
	Melanie Stroebel	

### **Part 3: Innovations for Low Carbon Mobility**

<b>11</b>	<b>The Constrained Governance of Socio-technical Transitions: Evidence from electric mobility in Scotland</b>	<b>189</b>
	Craig Morton and David Beeton	
<b>12</b>	<b>Innovations to Transform Personal Mobility</b>	<b>205</b>
	Tim Schwanen	
<b>13</b>	<b>Interrelationships of Internet Technologies and Transport Behaviour</b>	<b>219</b>
	Stefan Gössling	
<b>14</b>	<b>Aeromobilities in Transition: From quick and dirty to slow and sexy</b>	<b>233</b>
	Rob Bongaerts, Jeroen Nawijn, Eke Eijgelaar and Paul Peeters	
	<b>Case Study 5: Low carbon mobility transitions in China</b>	<b>246</b>
	David Tyfield and Dennis Zuev	
	<b>Case Study 6: Achieving a low carbon transition in Japan: The role of motor vehicle lifetime</b>	<b>255</b>
	Shigemi Kagawa, Daisuke Nishijima and Yuya Nakamoto	

### **Conclusion**

<b>15</b>	<b>Low Carbon Mobility: Urgent futures and radical transitions</b>	<b>266</b>
	James Higham and Debbie Hopkins	
	<b>Index</b>	<b>277</b>

---

# Biographies

## Editors

**Debbie Hopkins** is a Research Fellow at the Transport Studies Unit, School of Geography and the Environment, and a Junior Research Fellow in Geography at Mansfield College, both at the University of Oxford (UK), where she works with the Centre on Innovation and Energy Demand (CIED). Debbie is an environmental social scientist and human geographer with research interests relating to climate change mitigation and adaptation, mobility cultures, and low carbon mobility practices and innovations. A comprehensive summary of Debbie's publication record can be viewed on Google Scholar at: <http://tinyurl.com/jl8k4y2>. Email: [debbie.hopkins@ouce.ox.ac.uk](mailto:debbie.hopkins@ouce.ox.ac.uk)

**James Higham** is a Professor at the University of Otago (New Zealand), Visiting Professor, University of Stavanger (Norway) and co-editor of the Journal of Sustainable Tourism. His research addresses tourism and environmental change across the spectrum of spatial scales. A comprehensive summary of James's publication record can be viewed on Google Scholar at: <http://tinyurl.com/j9ksq7u>. Email: [james.higham@otago.ac.nz](mailto:james.higham@otago.ac.nz)

## Contributing authors

**Stewart Barr** is Professor of Geography at the University of Exeter, UK. His research focuses on the social science of behavioural change for sustainability. He has worked on a wide range of projects that seek to understand how publics engage with contemporary environmental issues and undertakes teaching at the undergraduate and post-graduate levels on sustainability, risk and the geographies of transport and mobility. Email: [s.w.barr@exeter.ac.uk](mailto:s.w.barr@exeter.ac.uk)

**David Beeton** is Managing Director of Urban Foresight, a consulting think tank focused on strategies and solutions for future cities. He is also Director of E-cosse, a government-backed partnership to advance electric vehicle adoption in Scotland, and led the development of Transport Scotland's *Switched on Scotland* roadmap to Widespread Adoption of Plug-in Vehicles. David holds Master's degrees in Civil and Environmental Engineering, an MBA and a PhD in Technology Management from University of Cambridge. Email: [david.beeton@urbanforesight.org](mailto:david.beeton@urbanforesight.org)

**Rob Bongaerts** is a Lecturer at NHTV Breda University of Applied Sciences (Breda, Netherlands), where he also researches for the Centre for Sustainable Tourism and Transport. Rob focuses on business and airline economics, aviation management, tour operating and sustainable tourism. Email: [bongaerts.r@nhtv.nl](mailto:bongaerts.r@nhtv.nl)

**Vivek Chandran** is a Research Associate at the Centre for Urban Equity and visiting faculty at the Faculty of Planning, CEPT University. He has been working on sustainable land use and transport issues for more than three years. His research interests lie in land use transport integration and parking policy in the Indian context. Email: [vivek.chandran@cept.ac.in](mailto:vivek.chandran@cept.ac.in)

**Scott A. Cohen** is Head of the Department of Tourism and Events and Deputy Director of Research for the School of Hospitality and Tourism Management at the University of Surrey (United Kingdom). Scott primarily researches sociological and consumer behaviour issues in tourism, transport and leisure contexts, with particular interests in sustainable mobility, hypermobility and in lifestyle travel. Email: s.cohen@surrey.ac.uk

**Alexa Delbosc** is a Lecturer in the Institute of Transport Studies in the Monash University Department of Civil Engineering. She draws from her research-based Master's in social psychology from Harvard University to study the changing travel habits of young people, transport and psychological well-being, travel behaviour and human factors in public transport. In 2016 she was awarded a Discovery Early Career Research Award by the Australian Research Council to conduct a three-year study of the travel and life transitions of Australian millennials. Email: alexa.delbosc@monash.edu

**Eke Eijgelaar** is Senior Researcher at the Centre for Sustainable Tourism and Transport of NHTV Breda University of Applied Sciences, the Netherlands. His main research interest concerns the monitoring and mitigation of tourism's carbon footprint, and related topics like carbon management and low- as well as high-carbon tourism such as cycle and cruise tourism. Eke has co-authored articles in the *Journal of Sustainable Tourism* and *Tourism Management*, amongst others, and published several book chapters in edited volumes. Email: eijgelaar.e@nhtv.nl

**Stefan Gössling** is a Professor at Lund and Linnaeus Universities, both Sweden. He is also the research co-ordinator at the Western Norway Research Institute's Centre for Sustainable Tourism. He studies interrelationships of tourism, transport and sustainability. Email: sgo@vestforsk.no

**C. Michael Hall** is Professor at the University of Canterbury, New Zealand and a Docent, University of Oulu, Finland. He also holds positions at Linnaeus University, Sweden; the University of Eastern Finland; and the University of Johannesburg, South Africa. Current research focuses on global environmental change, regional development and World Heritage in Denmark, Germany, Mauritius and Sweden. Further details on Michael's work can be found here: <http://tinyurl.com/h5tuw7j>

**Muhammad Imran** is an Associate Professor and teaches transport and urban planning at Massey University, New Zealand. His current research explores how institutions can promote sustainable transport in cities in developing and developed countries. His research argues for a greater recognition of the role of politics and the influence of discourse on transport decision-making and reveals the limitations of technical methodologies. Imran is an author of a book, *Institutional Barriers to Sustainable Urban Transport in Pakistan* published by Oxford University Press in 2010. Imran has received research grants from the Royal Society of NZ Marsden Fund (2013-2016) and, the NZ Transport Agency (2008) and has acted as a consultant for the World Bank (2010). Email: m.imran@massey.ac.nz

---

**Yogi Joseph** is a Research Associate at the Centre for Urban Equity, CEPT University, Ahmedabad, India. He is keenly interested in accessibility studies, especially from the perspective of vulnerable groups including women, children and the differently-abled. Email: [yogi.joseph@cept.ac.in](mailto:yogi.joseph@cept.ac.in)

**Rutul Joshi** teaches at the Faculty of Planning, CEPT University and is a founding member of Centre for Urban Equity at CEPT University, Ahmedabad, India. His research interests consist of issues of sustainable mobility and transport equity in the cities of Global South. Rutul teaches subjects related to land use and transport planning along with urban history. Email: [rutul.joshi@cept.ac.in](mailto:rutul.joshi@cept.ac.in)

**Shigemi Kagawa** obtained his BA in Civil Engineering, MA in Information Sciences, and Ph.D. from Tohoku University, Japan, in 2001. Since 2016, he has been a Professor of environmental and economic statistics at Kyushu University, Japan. His research interests include integrated industrial ecology modelling techniques and sustainability research. Email: [kagawa@econ.kyushu-u.ac.jp](mailto:kagawa@econ.kyushu-u.ac.jp)

**Lisa Kane** is an engineer-sociologist with a special research interest in how ways of valuing circulate in road engineering practices. She has advised on several low carbon transport transition projects in South Africa and has consulted to various NGOs, including the World Wildlife Fund. She is co-founder of the Centre for Transport Studies at the University of Cape Town, where she is currently an Honorary Research Associate. She is also co-founder and board member of the NGO Open Streets Cape Town. Email: [lisa@lisakane.co.za](mailto:lisa@lisakane.co.za)

**Sophie-May Kerr** is a PhD student in the School of Geography and Sustainable Communities at the University of Wollongong. Her research interests include ethnic diversity and low carbon mobilities and the experiences of families with children living in apartments, sharing materials and space. Through her research, Sophie-May seeks to explore social and environmental transformations that address high-carbon and space intensive urban lifestyles. Email: [smk534@uowmail.edu.au](mailto:smk534@uowmail.edu.au)

**Paula Kivimaa** is a Senior Research Fellow at Science Policy Research Unit, University of Sussex, and a Senior Researcher in the Finnish Environment Institute SYKE. She obtained a PhD in organisations and management from Helsinki School of Economics in 2008, focusing on the innovation effects of environmental policies on the Nordic forest industry. Her more recent research links to the interface between public policies and sustainability transitions, covering a range of empirical topics from innovations and policies related to transport and mobility to bioenergy and energy efficiency of buildings. Email: [p.kivimaa@sussex.ac.uk](mailto:p.kivimaa@sussex.ac.uk)

**Natascha Klocker** is a Senior Lecturer in the School of Geography and Sustainable Communities, at the University of Wollongong, Australia. Natascha's research seeks to foreground the contributions of diverse migrant groups to environmental thinking – and practice – in Australia. Her central argument is that environmental thinking urgently needs to be more open to the diverse cultural resources that migrants bring. Email: [natascha@uow.edu.au](mailto:natascha@uow.edu.au)

**Tobias Kuhnimhof** heads the department for passenger transport at the Institute for Transport Research of the German Aerospace Center (DLR) in Berlin since 2014. From 2002 to 2010 he worked at KIT's (Karlsruhe Institute of Technology) Institute for Transport Studies; from 2009 to 2010 he was director of statistics and modelling for STRATA GmbH, a consultancy specializing in travel and tourism; from 2010 to 2014 he worked for ifmo, a research establishment of BMW. He holds a diploma in civil engineering and a doctorate degree in transportation engineering. Email: tobias.kuhnimhof@dlr.de

**Hamish Mackie** leads a small consultancy (Mackie Research and Consulting) and has 20 years of research and consultancy experience in various areas of human factors and ergonomics, with the last ten years spent mostly in the transport sector. The design of transport environments and the associated influence on people's behaviour is Hamish's major area of focus and much of his work in this area involves demonstration projects or trials. The associated uptake of sound transport design processes and outcomes by stakeholders is also an active area of Hamish's work. Email: hamish@mackieresearch.co.nz

**Alex Macmillan** is a public health physician and Senior Lecturer in Environmental Health at the Department of Preventive and Social Medicine, University of Otago. Her main interests are in translating evidence linking environmental sustainability and health into policy knowledge using participatory modelling. Her particular areas of focus are climate change, transport and housing. Alex is also involved in community based epidemiological research to understand the impacts of changing urban environments on health, equity and environmental sustainability. Email: alex.macmillan@otago.ac.nz

**Craig Morton** is a Research Fellow in the Institute for Transport Studies at the University of Leeds where he investigates the uptake of low carbon technologies in the transport and household energy sectors. His interests primarily involve the factors which motivate the adoption of low carbon technologies and how the adoption of these technologies varies across space and time. Craig holds a bachelor's degree in Economics from the University of Stirling, a Master's degree in Ecological Economics from the University of Edinburgh and PhD in Human Geography from the University of Aberdeen. Email: c.l.morton@leeds.ac.uk

**Yuya Nakamoto** obtained his BA in Economics from Kyushu University, Japan, in 2016. Yuya is currently a Ph.D. candidate at Kyushu University, Japan, with research interests including product lifetime analysis and climate policy analysis. Email: y.nakamoto0527@gmail.com

**Jeroen Nawijn** is Senior Researcher at the Centre for Sustainable Tourism and Transport of NHTV Breda University of Applied Sciences, the Netherlands. His publications cover many aspects of the tourist experience, such as subjective well-being, sustainable behaviour, and emotional experiences at dark tourism sites. Jeroen's academic publications are often featured in popular media. Email: nawijn.j@nhtv.nl

**Peter Newman** is Professor of Sustainability at Curtin University in Australia. He served on the Board of Infrastructure Australia and was lead author for Transport on the IPCC. He was awarded an Order of Australia for his contribution to urban design and sustainable transport. Email: p.newman@curtin.edu.au

**Daisuke Nishijima** obtained his BA in Economics, and MA in Economics from Kyushu University, Japan, in 2016. Daisuke is currently a Ph.D. candidate at Kyushu University, Japan. His research interests include product lifetime analysis and climate policy analysis. Email: nishijindaiko@gmail.com

**Jane Pearce** is a PhD candidate at the University of Canterbury in New Zealand. Her research focuses on the potential of the alternative type of cycles to increase cycling rates among women. She is interested in women and marginal communities research area, and its link to complex issues of social exclusion and ecological sustainability. Email: jane.pearce@pg.canterbury.ac.nz

**Paul Peeters** is Associate Professor at the Centre for Sustainable Tourism and Transport of NHTV Breda University of Applied Sciences, the Netherlands. Paul is specialized in the impacts of tourism on the environment and specifically on climate change. His publications cover a wide range of topics like global and regional tourism and climate scenario's, system dynamic approaches to tourism, tourism transport mode choice and modal shift, policy making and transport technological developments. Email: peeters.p@nhtv.nl

**Tim Schwanen** is Associate Professor of Transport Studies and Director of the Transport Studies Unit in the School of Geography and the Environment at the University of Oxford (UK). He is a geographer whose research addresses a range of themes and concerns, including mobilities, cities, socio-technical transitions, social and spatial inequalities, well-being, and the conceptualisation of temporality in geography. Email: tim.schwanen@ouce.ox.ac.uk

**Leanne Seeliger** is a Research Associate of the University of Stellenbosch's Unit for Environmental Ethics. She has lectured environmental philosophy at several tertiary institutions and her research interests are the green economy, adaptive governance and environmental ethics. She is also passionate about doing environmental education among children living in underprivileged communities. Email: seeliger@sun.ac.za

**Melanie Stroebel** is a Research Associate at the University of Koblenz-Landau in Germany, where she is part of a cluster to set up a research network that engages with the governance of sustainable growth. She is particularly interested in climate change and approaches the challenge with an interdisciplinary perspective that draws on tourism management, corporate environmental management and global environmental governance. Her doctoral research at the University of Manchester explored how tour operators address and communicate carbon management as well as the context in which they do so. Email: melanie\_stroebel@gmx.de

**Gareth Shaw** is Professor of Retail and Tourism Management in the Business School and was formally Professor of Human Geography at Exeter. He is currently working on Tourism, ecosystem services and wellbeing based on a 4 year EU grant. This involves aspects of social marketing and behaviour change. In addition he has worked on a number of projects relating innovations and behaviour change in consumers. Email: g.shaw@exeter.ac.uk

**Armi Temmes** is Professor of Practice at Aalto University, School of Business. Trained originally as a microbiologist she has long experience on paper industry, industrial R&D, and especially environmental and corporate responsibility management. At the moment she is involved in teaching of corporate responsibility and research on strategy and sustainable innovation journeys in transport, energy and circular economy. Email: armi.temmes@aalto.fi

**David Tyfield** is a Reader in Environmental Innovation & Sociology at the Lancaster Environment Centre, Lancaster University. He is Director of the International Research and Innovation Centre for the Environment (I-RICE), Guangzhou and Co-Director of the Centre for Mobilities Research (CeMoRe), Lancaster University. His research focuses on the interaction of political economy, social change and developments in science, technology and innovation, with a particular focus on issues of low carbon transition in China, especially urban e-mobility. He is currently Principal Investigator for a UK Economic and Social Research Council-funded project (2013-17) with colleagues at CeMoRe, Sussex, SOAS, Tsinghua and CAS on 'Low Carbon Innovation in China: Practice, Politics & Prospects', in which he is also leading the research package on urban e-mobility. Email: d.tyfield@lancaster.ac.uk

**Gordon Waitt** is Head of School and a Professor in the School of Geography and Sustainable Communities at the University of Wollongong, Australia. His research draws upon critical human geography perspective to address social inequalities. His current projects address the inequalities of domestic energy, everyday mobilities and regional cities. Email: gwaitt@uow.edu.au

**Christine Weiss** works as a research assistant at the Institute for Transport Studies at Karlsruhe Institute of Technology (KIT) since 2012, after concluding her studies in economics engineering at KIT. She is currently preparing her PhD thesis on modelling of car use during longer periods of time. Her main field of research includes surveys on travel behaviour, especially the German Mobility Panel (MOP) and various other topics in travel behaviour research. Email: christine.weiss@kit.edu

**Dennis Zuev** is a Researcher at CIES-ISCTE, Portugal and vice-president (research) of ISA WG03 Visual Sociology. He participated in the ECPR project Low Carbon Innovation in China at Lancaster University (2014-2016). His current research interests are urban mobility, circumpolar mobilities, visual sociology, and China. Email: tungus66@gmail.com

# Acknowledgments

During the course of this book project we have accumulated various debts of favour that we must acknowledge. We are very grateful to Sally North (Goodfellow Publishers, Oxford) who has provided constant support throughout this project. It is very gratifying to work with high quality researchers and we are very grateful for the original empirical and theoretical contributions of all of the authors whose work appears in this volume. This book was inspired initially by collaborations with various scholars at the University of Otago (New Zealand), including our colleagues at the Otago Climate Change Network; Colin Campbell-Hunt, Ben Wooliscroft, Ceri Warnock, Chris Rosin, Hilary Phipps, Sara Walton and Bob Lloyd.

We are also grateful for the collegiality of colleagues and collaborators including Janet Stephenson, Michelle Scott, Jane Khan, Caroline Orchiston, Alaric McCarthy, Sandra Mandic, Sebastian Filep, Tara Duncan, Liz Slotten, Diana Kutzner, Sarah Tapp, Wiebke Finkler, Hassan Kamrul, Abbas Alizadeh, Abrar Faisal, Ismail Shaheer, Arif Hoque, Madda Fumagalli, Sam Spector (University of Otago), Tim Schwanen, Denver Nixon, Anna Plyushteva, Julio Soria-Lara (University of Oxford), Ezra Markowitz (University of Massachusetts Amherst), Graham Miller, Scott Cohen, Paul Hanna (University of Surrey), Tom Hinch (University of Alberta), Lars Bejder (Murdoch University), Ghazali Musa (University of Malaya), Michael Hall (University of Canterbury), Susanne Becken, Brent Moyle (Griffith University), Stefan Gössling (Linnaeus University and Western Norway Research Institute), Truls Engstrøm, Åsa Grahn (University of Stavanger), David Simmons (Lincoln University), Paul Peeters, Eke Eijgelaar (NHTV Breda), Arianne Reis (Western Sydney University), Martin Young (Southern Cross University), Francis Markham (The Australian National University), Brent Ritchie, Lisa Ruhanen, Gabby Walters, Andy Lee (University of Queensland), Bernard Lane (Leeds Beckett University), Bill Bramwell (Sheffield Hallam University), Jan Vidar Haukeland (Norwegian University of Life Sciences and Institute of Transport Economics), Christina Cavaliere (Stockton University), Trudie Walters (University of the Sunshine Coast) and Kelsey Johansen (University of Manitoba).

During the writing of this book, Debbie moved from the Centre for Sustainability (University of Otago) to the Transport Studies Unit (University of Oxford), and would like to acknowledge her colleagues at the Universities of Oxford, Sussex and Manchester, and funding from the Centre for Innovation and Energy Demand (CIED) part of the RCUK's Energy Programme; grant number EP/KO11790/1. James acknowledges with gratitude the University of Stavanger (Norway) and the University of Queensland Jim Whyte Fellowship.

Our greatest debts are to our *whānau*; Mitchell Hopping, Greg and Sue Hopkins, Kaye, Kevin, Joey and Sam Heseltine, and Linda Buxton, Alexandra, Katie and George, Polly and Charles Higham, Tom Higham, Katerina Douka (and Angelos), Caroline Orchiston (and Henry), and Emma Holt.

*Debbie Hopkins, Oxford, United Kingdom*

*James Higham, Dunedin, New Zealand*
